Major : Statistics

Advisor(s) : 1. Associate Professor Phisanu Chiawkhun

2. Dr. Pimwarat Srikummoon

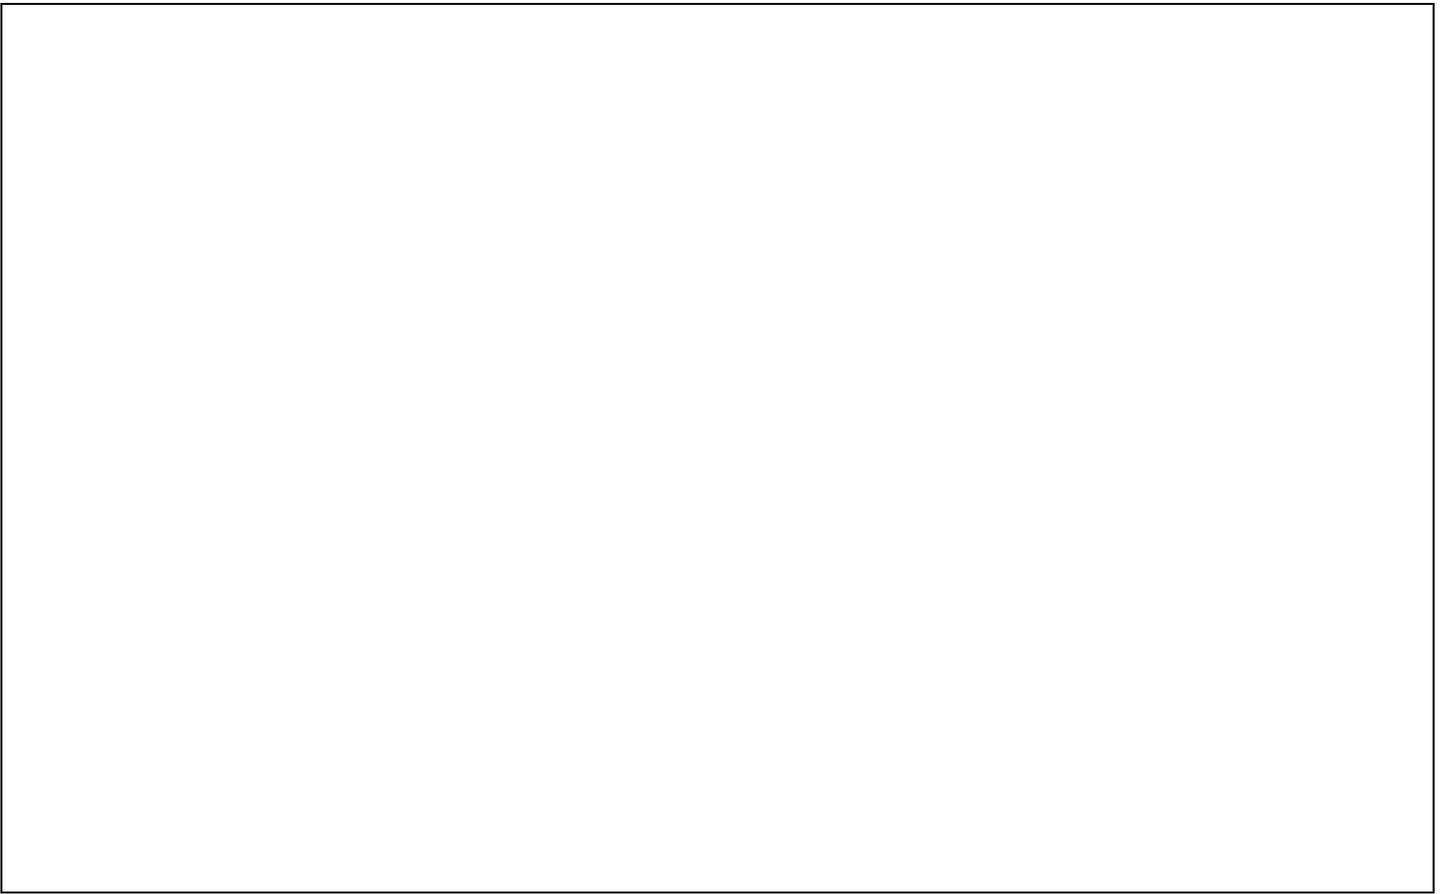

Type of presentation* (choose 1) : Oral Presentation (เฉพาะ ตัวแทนศ.ที่สาขาเลือกให้นำเสนอแบบบรรยาย)
 Poster (กรณี นำเสนอผลงานปัญหาพิเศษ/การค้นคว้าอิสระ)
 Cooperative Education (กรณี นำเสนอผลงานสหกิจศึกษา)

ABSTRACT

This study aimed to investigate the quality of life of first year students of Chiang Mai University in academic year 2024. The sample consisted of 306 first year students from 21 faculties, selected through convenience sampling. A questionnaire was used as the tool of data collection. The data analysis found that the overall quality of life among first year students of Chiang Mai University has at a high level. When examining each dimension of quality of life, it was found that mental health, food and nutrition, housing environment, social relationships, access to university services, and Learning were all at a high level. However, physical health was at a moderate level. A comparison of quality of life based on individual characteristics indicated that students from different academic disciplines, GPA of the first semester of 2024, family's average monthly income, students' average monthly income, and students' average monthly expenses showed significant differences in their quality of life. In contrast, gender, cumulative GPA from high school, type of accommodation, number of roommates, and hometown did not show significant differences in quality of life. Furthermore, students with family's average monthly income, students' average monthly income, and students' average monthly expenses exhibited significant differences in quality of life. However, differences in academic disciplines and GPA of the first semester of 2024 did not significantly in quality of life.
